A proficient Web Developer with three years of experience and a Bachelor's in Software Engineering, eager to transition into a Software Engineering role. With strong skills in problem-solving, teamwork, and adaptability, I pursue opportunities that present challenges and foster innovation. I am dedicated to achieving technical excellence through effective collaboration and ongoing professional development in the dynamic tech industry.

WORK EXPERIENCE

Mid-Level Web Developer

March 2023 - Present

Bizycorp | Sri Lanka

- Proficient in HTML, CSS, Sass, JavaScript, jQuery, PHP (OOP and MVC), React, Bootstrap, and MySQL.
- Specialized in WordPress CMS, including Gutenberg, WooCommerce, custom block development, and Docker-based development.
- Developed and customized WordPress plugins and themes for enhanced functionality and unique designs.
- Optimized web applications for speed, scalability, and performance, including SEO enhancements.
- Integrated third-party APIs and maintained custom APIs for expanded functionality.
- Utilized Git for version control and collaboration, including CI/CD pipeline automation with GitHub Actions.
- Deployed and managed websites using FTP, cPanel, Google Cloud Platform (GCP), and AWS EC2 instances for scalable solutions.
- Conducted rigorous testing, debugging, and ongoing maintenance to meet high-quality standards.
- Implemented responsive design principles and frameworks like Bootstrap for cross-device compatibility.
- Developed a medical application using PHP to streamline the management of patient details, medical records, appointments, and other operational aspects of medical practices.

Associate Frontend Developer

Nov 2021 - Dec 2022

Ebeyonds | Pannipitya, Sri Lanka

- Proficient in HTML, CSS, Bootstrap, Sass, CMS, JavaScript, jQuery, responsive UI design, and SEO, including WordPress theme development.
- Developed mobile-responsive interfaces and email templates using MJML, and worked on form builders for enhanced functionality.
- Contributed to diverse international projects, collaborating on interface development, maintenance, and WordPress customization.
- Implemented best practices for creating visually appealing and user-friendly web experiences, including FTP, cPanel management, and adhering to industry standards.

Intern Hardware Engineer

Aug 2021 - Nov 2021

V.S.Information System | Colombo 05

- Proficient in troubleshooting and repairing notebooks, desktops, and servers, including advanced server diagnostics

and networking issues.

- Tested and repaired hardware components such as circuit boards, processors, and memory cards, ensuring optimal system performance.
- Analyzed systems data to make informed decisions on hardware configuration changes, utilizing advanced diagnostics and network troubleshooting techniques to maintain optimal system performance.

PROJECTS

Service Finder System (MERN Stack)

- Created a service finder platform allowing users to search and book various services.
- Implemented advanced search filters, user reviews, and rating systems.
- Developed a secure authentication system and user profile management.
- It ensured data consistency and reliability through effective database schema design and query optimization.

Development Training Booking System (MERN Stack)

- Designed and developed a comprehensive booking system for training sessions utilizing the MERN stack.
- Implemented features for scheduling, booking management, user notifications, and payment processing.
- Integrated third-party APIs to handle email notifications and payment gateways.
- Focused on scalability and maintainability, employing modular code structure and efficient database design.

EDUCATION

BEng (Hons) in Software Engineering

UK London Metropolitan University

Jan 2020 - Dec 2023

College (G.C.E O/L)

Zahira College

Jan 2009 - Dec 2019

CERTIFICATION

Robotics and IoT

Esoft Metro Campus

Mar 2020 - Dec 2020

Electrical Engineering

Zahira Vocational Training Center (ZVTC)

Jan 2019 - July 2019

Electronics Engineering

Zahira Vocational Training Center (ZVTC)

Jan 2018 - July 2018

SKILLS
